## Career Objective

Computer Science Engineering student specializing in Internet of Things with strong interest in Industrial Automation, AI, and Smart Manufacturing solutions. Passionate about building practical software systems and exploring real-world problem solving through innovation and technology-driven solutions.

## Education

**B.E. Computer Science Engineering (IoT Specialization)**

Sri Krishna College of Technology, Coimbatore 2023 – 2027

CGPA: 7.8 / 10

## Key Skills

- Java
- Data Structures (Basics)
- Communication Skills
- HTML & CSS
- Problem Solving
- ML Concepts (Basics)

## Internships

**Artificial Intelligence Intern(ONLINE)**

CODTECH IT Solutions Pvt Ltd | July 2025 – August 2025

- Worked on AI-based projects using Python and ML concepts.
- Applied data processing and model implementation techniques.

**Full Stack Developer Intern**

Blue Silicon Infotech Pvt Ltd, Chennai | Dec 2024 – Jan 2025

- Assisted in front-end and back-end development tasks.
- Worked with database integration and web application modules.

## Projects

**Smart Text Analyzer App**

- Developed a Python-based text analysis application with real-time processing.
- Implemented word count, stopword removal, and sentiment analysis using NLTK & TextBlob.
- Built an interactive user interface using Streamlit for instant text insights

**Wedding Management System**

- Designed and developed a web application to manage wedding bookings and event details.
- Created responsive front-end using HTML and CSS.
- Digitized vendor and booking management to improve organization efficiency.

**Proposal Management System**

- Built a digital system to create and track project proposals.
- Designed a user-friendly interface for efficient proposal management.
- Improved document tracking and reduced manual paperwork.

## Certification

- NPTEL – Introduction to Internet of Things (Elite + Silver, 86%)
- Simplilearn Skill Up – Introduction to Cloud Computing
- Cisco – Python Essentials 1 & 2, Introduction to cyber security, CCNA Courses and Introduction to IoT & Digital Transformation
  Completed 30+ Coursera courses in Python, Data Science, AI, and Cloud Computing
