Professional Summary

Computer Science undergraduate with strong foundations in object-oriented programming, database systems, and computer networks. Hands-on experience in designing, developing, and testing full-stack applications using Java, SQL, and web technologies. Actively building problem solving skills and passionate about learning how large-scale software systems are engineered.

Technical Skills

Programming Languages:
Java, C++, Python

Core Computer Science:
Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Client–Server Architecture

Web & Backend:
HTML, CSS, JavaScript, REST APIs

Databases:
SQL

Tools & Platforms:
Git, GitHub, Docker (basic)

Projects

Skill Tracker for Employees — Full Stack Web Application

Jan 2025 – Mar 2025

- **Designed and developed a full-stack web application to manage employee skill records with role-based access.**
- **Implemented CRUD operations and authentication using Java, SQL, and RESTful APIs.**
- **Designed a structured relational database schema and optimized SQL queries for efficient data retrieval.**
- **Applied object-oriented programming principles to improve code organization and maintainability.**
- **Tested features and validated user inputs to ensure reliability and correctness.**
- **Code version-controlled using Git and GitHub.**

Education

B.E. Computer Science and Engineering
Sri Krishna College of Technology, Coimbatore
2023 – 2027

HSC (Computer Science): 82%
SSLC: 89%

U.G CGPA: 7.3

Certifications

- **SQL for Beginners: Querying Data — Coursera**
- **Computer Networks and Network Security — IBM (Coursera)**
- **Introduction to Operating Systems — NPTEL**
- **Docker for Absolute Beginners — Coursera**

Workshops / Training

AI / ML Workshop — Remarkskill, IIT Madras
